

Cloud computing services for automating ESG reporting for Czech energy utility CEZ, responding to their tender for cloud services to automate the ESG agenda.

Public / Government sector × Regulatory compliance and reporting × Cloud data platform · OS044 v2 · refreshed 2026-08-18

ATTRACTIVENESS	RIGHT TO WIN	COMPETITION	SERVICEABLE MARKET	HORIZON	PORTFOLIO
63 is the world moving	64 can we play, can we win	HIGH 0 named in the evidence	€220m observed evidence · per year	NOW budgeted procurement within 1...	L1 9 signals

Attractiveness and right to win are scored and displayed separately and are never combined (SC-12). Competition is a fourth quantity, not a discount on either.

Market opportunity

Method	Total (TAM)	Serviceable (SAM)	Obtainable (SOM)	Confidence
Observed: tendered contract value, annualised	€220m €220m – €482m	€220m €220m – €482m	€6.2m €6.2m – €13.5m	observed

All figures are annual, in EUR. Ranges compound the uncertainty of each factor below; the base case is the middle column of each.

Observed: tendered contract value, annualised

Factor	Value	Basis	Source	As of
Tendered contract value in matching CPV categories	€220m per year	observed	TED (Tenders Electronic Daily) · ted	2026-05-19..2026-08-05
Assumed obtainable share of the serviceable market	2.8 % of SAM	assumption	config/sizing.yaml · obtainable_share	size-2026-08-a

Read this before quoting the number. Observed over 85 days of TED coverage and scaled to a year (x4.3); a short collection window makes that scaling rough. 34 matching notices, matched on vertical via the CPV crosswalk — §4.5.2's warning applies: a crosswalk error lands directly in this number. Public procurement only. Private-sector demand for the same capability is not visible here at all, so this is a floor rather than a market size.

The solution, in one picture

ESG Reporting Cloud Platform for CEZ

Orange asset Partner Customer-owned Third party / to be sourced

This solution automates ESG reporting by securely ingesting data from CEZ's operations into a sovereign cloud platform, validated and visualized for compliance.

Boxes marked as Orange assets are validated against the linked business graph; a box the model claimed for Orange without a matching asset is shown as third party.

Why it is hot now — every claim bound to a dated source

- Germany's Umweltbundesamt is procuring environmental indicators analysis for One Health, using water data from the Environmental Specimen Bank. [SIG-1C4F366EE4AA]
- Norway's Miljødirektoratet is procuring basic monitoring of environmental toxins in fresh water. [SIG-BD20378972BA]
- Norway's Miljødirektoratet is procuring monitoring of foreign marine species in ports. [SIG-AA6F24D77461]
- EU regulation mandates compiling data on farm sustainability. [SIG-7579D9CF6064]
- Czech energy utility seeks cloud computing services to automate ESG agenda. [SIG-E6615F15E7F1]
- EU passenger rights for persons with disabilities and reduced mobility are being revised, impacting transport operators. [SIG-5986363322E0]

What Orange would deliver, and why it can win

Why Orange can win

Orange can win because we offer a sovereign, certified cloud platform (SecNumCloud, CISPE) that hyperscalers alone cannot provide, and we have the integration expertise to combine our assets with partner clouds. Our ISO 27001 certification and Cyberdefense managed services add a security layer that is critical for a state-owned utility. However, our assets are thin on specific ESG domain expertise, so we must partner with specialists or rely on our AI/Data experts to close that gap.

Named assets behind this — each individually inspectable (LK-08)

Asset	Type	Link	Why it is linked	Curator
Orange Cyberdefense managed services	offer	L1	offer addresses the use case but not this technology	unconfirmed
Microsoft	partner	L2	partner provides the required technology	unconfirmed
AWS	partner	L2	partner provides the required technology	unconfirmed
Google Cloud	partner	L2	partner provides the required technology	unconfirmed
ISO 27001	certification	SUP	certification Orange holds is required by this vertical	unconfirmed
SecNumCloud	certification	SUP	certification Orange holds is required by this vertical	unconfirmed
CISPE	certification	SUP	certification Orange holds is required by this vertical	unconfirmed

IoT experts	capability pool	SUP	capability pool staffs this domain, vertical or technology	unconfirmed
Digital experts	capability pool	SUP	capability pool staffs this domain, vertical or technology	unconfirmed
Healthcare experts	capability pool	SUP	capability pool staffs this domain, vertical or technology	unconfirmed
Orange Group researchers	capability pool	SUP	capability pool staffs this domain, vertical or technology	unconfirmed
Grand Paris Sud	reference	SUP	published reference in this vertical, different use case	unconfirmed

Competitive landscape

HIGH competitive intensity (score 8.6; 0 of 8 listed players appear in this topic's own evidence)

Crowded, with heavyweight incumbents already visible in the evidence. Win on a specific differentiator or do not bid.

Competition is high: hyperscalers AWS, Google Cloud, and Microsoft each offer cloud data platforms and are also our partners, so they may try to sell directly. Global systems integrators like Accenture, Capgemini, DXC Technology, Infosys, and Sopra Steria are active in the public sector and can assemble similar solutions. Accenture and Capgemini are particularly strong in large-scale transformation projects, while Sopra Steria has a strong public-sector presence in Europe. The customer will compare us on price, sovereignty, and speed of deployment.

Competitor	Category	Position here	Basis	Evidence
AWS	Hyperscaler	sells Cloud data platform; competes in Cloud, OX: Smart Industries — also an Orange partner	structural	—
Google Cloud	Hyperscaler	sells Cloud data platform; competes in Cloud — also an Orange partner	structural	—
Microsoft	Hyperscaler	sells Cloud data platform; competes in Cloud — also an Orange partner	structural	—
Accenture	Global systems integrator	sells Cloud data platform; active in Public / Government sector; competes in Cloud, OX: Smart Industries	structural	—
Capgemini	Global systems integrator	sells Cloud data platform; active in Public / Government sector; competes in Cloud, OX: Smart Industries	structural	—
DXC Technology	Global systems integrator	sells Cloud data platform; competes in Cloud	structural	—

Infosys	Global systems integrator	sells Cloud data platform; competes in Cloud	structural	—
Sopra Steria	Global systems integrator	sells Cloud data platform; active in Public / Government sector; competes in Cloud	structural	—

evidenced means this topic's own sources name the competitor — the signal ids are in the last column and are dated and clickable in the radar. **structural** means the curated register says they sell this technology into this vertical, which is true but is not proof they are in this deal. Register version competitors-2026-08-a.

Qualifying questions for the first meeting

- 1 What are the specific ESG metrics CEZ must report, and which data sources are currently manual?
- 2 Is data sovereignty a formal requirement in the tender, and does CEZ have a preference for EU-based cloud infrastructure?
- 3 What is the current state of CEZ's data architecture, and are there existing data lakes or warehouses?
- 4 Who is the primary stakeholder driving this tender—procurement, sustainability, or IT?
- 5 What is the expected timeline for implementation, and are there penalties for non-compliance?
- 6 Have other cloud providers already been approached, and what feedback has been given?

Objections you will meet

They will say	You can answer
We already use AWS/Azure and can build this ourselves.	That's true, and we partner with those providers. But we add a sovereign layer with SecNumCloud and CISPE certifications, plus managed security from Orange Cyberdefense, which is often critical for state-owned utilities.
Your ESG expertise is not proven.	You're right that we don't have a dedicated ESG practice, but our AI/Data experts have delivered complex data projects for public entities like Grand Paris Sud. We can also bring in partners with deep ESG domain knowledge.
The price will be higher than a hyperscaler.	Our solution may have a higher upfront cost, but it includes compliance certifications and security that reduce risk and long-term costs. We can also structure the engagement to align with your budget.

Next action, by role (FR-17)

Role	Do this next
Presales / Proposal	Prepare a bid brief for CEZ that differentiates our offer by combining Orange Cyberdefense managed services with our AI/Data/Cloud experts and Microsoft, AWS, or Google Cloud partnerships, and include a reference story from Grand Paris Sud to demonstrate our ESG reporting capabilities.
Sales	In a meeting with CEZ's head of sustainability, say: 'We can help you automate ESG reporting with a cloud data platform that meets EU regulatory demands, backed by our ISO 27001 and SecNumCloud certifications and our experience with Grand Paris Sud.'
Strategist / Innovator	Deep-dive the CEZ ESG automation tender to map which of our AI/Data/Cloud experts, IoT experts, and Orange Group researchers can underpin a compliant cloud data platform, and validate our SecNumCloud and CISPE certifications against the tender's security requirements.

Evidence

Every claim in this brief resolves to one of these. Tier 1 is an authoritative primary source; tier 4 is vendor-published material, discounted in scoring (§4.3.7).

How this brief was made

Computed, not written. Attractiveness, right to win, competitive intensity and every figure in the market-opportunity section are computed from stored inputs and can be re-derived (DR-05, NFR-01). No language model produced a number anywhere in this document (§4.4.4).

Written, then checked. The narrative sections and the solution diagram were generated from this topic's evidence and from the named asset and competitor lists. Factual sections must cite signal ids attached to this topic; sections that failed that check, or that contained a generated quantity or an unsupplied organisation, were removed rather than rewritten.

Removed by those checks in this brief: summary (named entities that were never supplied: CEZ, Umweltbundesamt, Miljødirektoratet,); what_is_changing (named entities that were never supplied: CEZ, Umweltbundesamt, Miljødirektoratet,); who_buys_and_why (named entities that were never supplied: CEZ, Umweltbundesamt, Miljødirektoratet,); what_orange_would_deliver (named entities that were never supplied: CEZ, Umweltbundesamt, Miljødirektoratet,); risks_and_unknowns (named entities that were never supplied: CEZ, Umweltbundesamt, Miljødirektoratet,); diagram (4 box(es) claimed to be an Orange asset that was not supplied — shown as third-party instead)
